DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Thomas Scherer on 02/03/2009.

The application has been amended as follows:

In claim 1, line 19, "selected channel" should be changed to - - selected another channel - -.

In claim 2, line 18, "selected channel" should be changed to - - selected another channel - -.

In claim 6, line 7, "and is sequentially output" should be changed to - - and to sequentially output - -.

In claim 6, line 16, "sequentially output the" should be changed to - - sequentially outputs the - -.

In claim 6, line 18, "section does not recorded the digital" should be changed to - - section stops recording the digital - -.

In claim 6, line 26, "section does not record the digital" should be changed to - - section stops recording the digital - -.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance:

Regarding claim 1, prior art of record fails to show or reasonably suggest that when the viewer changes the selected channel to another channel which is not included in the favorite channel map while the recorder section records the one channel, the control section controls the recording section to stop recording the selected another channel, in combination with all the other limitations presented in claim 1. Therefore, independent claim 1 is allowable.

Regarding claims 2 - 5, prior art of record fails to show or reasonably suggest that when the viewer changes the selected one channel to another channel which is not included in the favorite channel map, while the recording section records the one channel, the control section controls the recording section to stop recording the selected another channel, in combination with all the other limitations presented in claim 2. Claims 3 - 5 depend on allowable claim 2. Therefore, the dependent claims are also held allowable.

Regarding claim 6, prior art of record fails to show or reasonably suggest that the recording section stops recording the digital data of the channel currently selected when the selected channel is not included in the favorite channel map, in combination

Art Unit: 2423

with all the other limitations presented in claim 6. Therefore, independent claim 6 is allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion
